## 8 Q G H U V W D Q G L Q J b \ R X U U H V X O W V

**3 R M W H** GCN DNA has been detected in this sample, meaning that at least one of the 12 replicates has amplified. Remember that this is not a quantitative test, so you should not interpret a high eDNA score (e.g. 12/12) as necessarily indicating a larger population of GCN than a low eDNA score (e.g. 1/12).

**1 H J D M W H** No GCN DNA has been detected in this sample, ~~by~~
